

IDA 2015

The Fourteenth International Symposium on Intelligent Data Analysis

www.ida2015.org

 @ida_news
 IDA_symposia

The IDA 2015 symposium seeks papers that go beyond established technology and offer genuinely novel and “game-changing” ideas.

Call for Papers

IDA 2014 solicits papers on all aspects of intelligent data analysis, including papers on novel techniques to modeling and analyzing data from complex, dynamical systems. In particular, it seeks game-changing papers that might elsewhere be considered preliminary but nevertheless contain potentially high impact research. The symposium will have two paper tracks: 1) the traditional Proceedings Track, with accepted papers published in the proceedings; and 2) the Horizon Track, which will allow authors to present early-stage research of potentially ground-breaking nature without formally publishing it.

PhD Posters & Videos

Like last years, PhD students will be given the opportunity to present and discuss their work at the symposium. More details will follow later on the IDA 2015 website and social media.

Frontier Prize

The IDA Frontier Prize (1000€) will be awarded to the most visionary contribution.

Key Dates

8 May 2015 – paper submission
3 July 2015 – author notification
22-24 October 2015 – symposium
